

Introducing *Enhanced Days*, now — available during boarding stays at — Stugdale Canine Clubhouse

A MORE TAILORED, ENRICHING STAY FOR YOUR DOG

Your dog's time with us has always been about more than care, it's about experience.

Now, during their stay, you can choose to include Enhanced Days; adding enrichment, structure and calm, tailored to your dog.

During Their Stay

You can now enhance your dog's booking by including a mix of Standard and Enhanced Days.

This allows you to tailor their stay around:

- their energy levels
- their personality
- the length of their visit

Choose higher-energy days, slower-paced days, or a balance of both, we'll guide you on what suits them best.

— What is an Enhanced Day? —

Structured Enrichment

Purposeful activities to engage mind and body

Calm Spaces

Dedicated rest time in quieter surroundings

Tailored Experiences

Built around your dog's individual needs

Spa Treatments

Pampering & Wellness experiences

— Rest & Reset —

Throughout Enhanced Days, dogs are given dedicated time away from stimulation, allowing them to properly rest, reset and process their day.

This creates a more balanced experience, particularly for dogs who benefit from a calmer pace alongside enrichment.
